

## [How to Contribute to the Virtual School Symposium 2011 Wiki](#)

1. Open your browser, and navigate to [vss11.wikispaces.com](http://vss11.wikispaces.com)
2. **Sign In** using your wikispaces account. If you do not have a login, create one by clicking the **Join**.  
Note: You can still do minimal editing without an account, but we recommend you sign up for the free account so you can track your changes.

3. **Find the Session Page** you would like to add information to, either by scrolling down and using the links to find your session, or by searching on the left hand side.

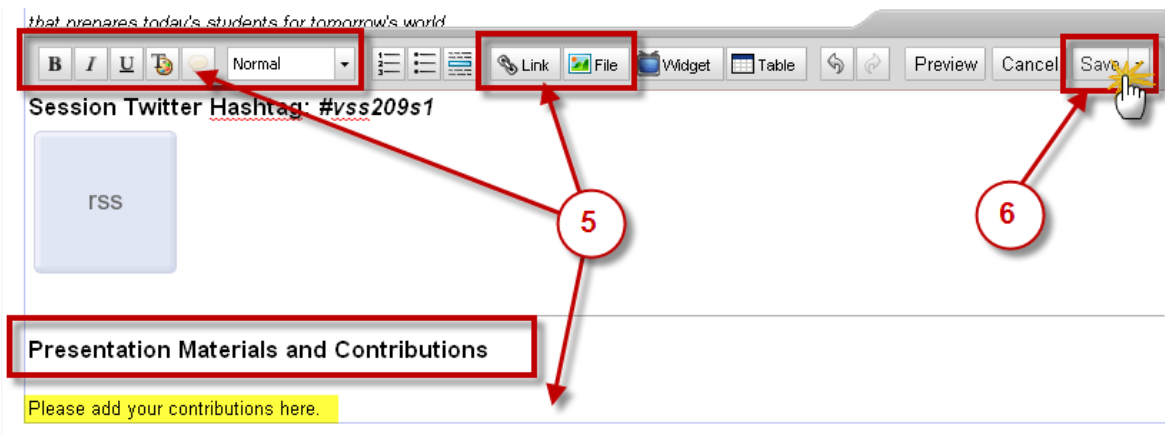

4. Once on the page, **click the Edit** button in the top right corner.

5. General information about your session has already been added to the wiki. To add your own information, **scroll down to the section titled "Presentation Materials and Contributions"**. Select the text "Please add your contributions here", and add your session notes, presentations, videos, and any other information that you think will be helpful for conference attendees. **Use the text editor buttons** at the top to format text, add files, or links to your information.

6. Throughout editing, **click the Save** button at the top right to keep your changes.

7. For additional instructions, **click the help link** in the top right corner of the wikispaces page.
